Dear Mr. ,

We have always been able to pull ourselves out of trouble until the last few months. Many factors have impacted this troublesome time. Tensions and nerves were at an all-time high and a tremendous strain. We absolutely did not know where to turn for help, until your company came to us.

and have been lifesavers to us. They have put the system into place that will be workable and save us from destruction. Their dedication to us is amazing; it is obvious they want us to succeed. Working with the both of them is an absolute pleasure. Since they are very professional and knowledgeable, it is a blessing to have them "on our team" in this adventure. We feel very relieved to know a plan of action to create a good profitable business. Our thanks to your company and especially to and for giving us a renewed hope for better tomorrows.

Respectfully,
